

# It Is Time To Renew Your Support In Building A Stronger Macedonia

**By becoming a supporter of Macedonia 2025 for less than a dollar a day you will help bring attention and results to some of the most challenging issues facing the Macedonian economy**

### Education

We need to ensure that children of all ages in Macedonia have access to a complete and modern education. In order to reach their fullest potential students need to have access to technology and practical experiences that are all based on a modern and relevant curriculum. Upon graduation they need to be fully equipped to confidently enter into the workforce.

### Job Creation

Macedonia 2025 will continue to encourage both entrepreneurship and business development in Macedonia. We will promote a new attitude towards competitiveness by helping businesses recognize opportunities for growth and together develop a strategy to attain those goals.

### Professional Development

One of Macedonia's best resources is its people. Macedonia 2025 will be organizing a series of human resources and skills development projects that will train middle managers, build mentorship relationships, support an internship program and much much more.

**Да, сакам!**

*Yes... I would like to renew  
my pledge and become a  
supporter of  
Macedonia 2025*

### Monthly Donation

I will become a Supporter. Here is my monthly gift of \$20
